Call for Participation
2020 CAP Implementation Workshop

The 2020 Common Alerting Protocol (CAP) Implementation Workshop will be 29-30 September, 12:30 - 17:30 CEST. It is hosted and co-sponsored by the International Telecommunication Union (ITU) and it will be conducted as a video call-in session over Zoom. Call-in instructions for Zoom will be sent to all registered participants. Documents pertaining to the Workshop can be found at the Workshop website.

CAP, designated as ITU Recommendation X.1303, is recognized internationally as the key standard for societies to achieve all-hazards, all-media public alerting for emergencies.

CAP Implementation Workshops provide a forum for implementers of CAP and associated organizations to discuss how best to expand adoption of the CAP standard and to share practices among users of the standard. There is no charge to participate and anyone interested in emergency alerting is welcome: managers, technical staff, media, etc., including commercial organizations, governments, and non-governmental organizations.

If you have CAP implementation experiences or insights to share, please let the Program Committee know that you want to give one of the presentations. As usual, presentations will be limited to 20 minutes each.

The 2020 CAP Implementation Workshop is also co-sponsored by the International Association of Emergency Managers (IAEM), the International Federation of Red Cross and Red Crescent Societies (IFRC), OASIS (the international standards organization that actually maintains the CAP standard), and the World Meteorological Organization (WMO).

Please share this note with any discussions lists and individuals interested in emergency alerting.

The Program Committee of the 2020 CAP Implementation Workshop:

IAEM          Beth Armstrong
IFRC          Jessica Ports Robbins
ITU           Maritza Delgado
OASIS         Elysa Jones
WMO           Miriam Andrioli
